I give permission for Canton AA to share my protected health information with: Name_____ Relationship_____

Name_____ Relationship_____ Name_____ Relationship_____

_____ (√) Initial: **PATIENT CONSENT TO ALLERGY TESTING** I agree to allergy skin testing being performed should it be necessary and I acknowledge that I am ultimately responsible for any charges for service provided by Canton Asthma & Allergy. I understand test(s) will be ordered based on the oral history of symptoms I provide today, and/or my doctor's professional medical opinion. This opinion may also be based on medical data provided in previous clinic notes or laboratory results contained in my medical record. As stated in the Financial Policy below, I understand my insurance carrier will be billed for allergy skin testing but I am ultimately responsible for all charges.

FINANCIAL POLICY

It is YOUR responsibility to check that our services are covered under your insurance plan - Confirm allergy testing (CPT4: 95004 /95024) and office visit (CPT4: 99214 and 99215) are covered services. These codes are also available on our website, www.CantonAllergy.com (PATIENT INFORMATION; Forms for Your Visit; New Patient Packet; page 3). Should you anticipate allergy shots confirm CPT CODES: 95115 / 95117 / 95165 are covered services.

OUR relationship is with YOU, NOT your medical insurance company. Canton Asthma/Allergy will bill your medical insurance but your health insurance policy is a contract between you, your employer, and your insurance carrier. All charges for medical services we provide to you are ultimately YOUR responsibility.

Co-pay and any unpaid past due balance is due at time of service. If your copay is not paid at time of service, a billing fee is added to the charges. **Patient billed balances are due in full within 30 days**. No further services will be provided until the account is paid in full unless other arrangements have been made with the Manager. Canton Asthma/Allergy accepts Cash, Check, Money Order, Master Card, Visa, American Express, and Discover credit cards. We offer CareCredit, a zero interest credit card if paid in full according to same as cash time Terms, should you be interested in a payment plan. Ask receptionist for details.

An unpaid balance more than sixty (60) days overdue may be submitted to our Collection Company (IC Systems) and is subject to a Collection Fee. The Collection Fee is based on a maximum percentage of the debt as allowed by law and is assessed to the Practice for every account submitted to IC Systems. The Fee is passed on to the patient balance due when submitted to IC Systems. Once an account is submitted to IC Systems (800/685-0595), patient payment(s) are collected by them until the account is cleared. Accounts in Collections ARE reported to credit reporting agencies. A patient with an account in Collections will not be scheduled until the debt is cleared and could result in dismissal from the Practice.

Canton Asthma/Allergy will bill the insurance carrier information we have as last provided by you. You may be asked to pay your charges in full should: (1) we not receive payment as a result of your failure to notify us of a change in coverage, (2) you fail to provide information requested by your insurance company (i.e. Coordination of Benefits [COB], etc.), or (3) we not receive payment from your insurance carrier more than 30 days after clean claim submission. A detailed receipt will be provided so that you may submit directly to your insurance company for reimbursement. Any overpayment to the Practice that may occur is promptly refunded.

Checks that return to us due to Non-Sufficient Funds (NSF) will incur an NSF charge added to original balance and result in our refusal to accept your checks in future.

A 24-hr advance notice of appointment cancellation is required. Established patients who miss a scheduled appointment will be charged a "NO SHOW" fee. As a courtesy to our patients, we make reminder calls 1-3 days prior to scheduled appointment. To cancel an appointment and/or leave a message after hours, dial 734/394-2661 and choose option 1. You can also send us an email via our website CONTACT tab. New Patient No Show's may result in our refusal to reschedule an appointment.

We understand that temporary financial problems may affect timely payment of your balance. Please communicate any problem to us our Canton office (734/394-2661) within 10 days of receipt of invoice so we can assist you in the management of your account. I understand and agree to the Financial Policy terms listed above. I received a copy of this Financial Policy for my records.

HOW DO DEDUCTIBLES, COINSURANCE AND COPAYS WORK?

DEDUCTIBLE. A fixed $ amount the insured must pay during a given time period, usually a year, before their health insurance benefits will pay a claim.

COINSURANCE. Like a copayment, coinsurance is a form of cost sharing for health services or prescription drugs between insurance companies and the insured. Coinsurance means both you and your insurance company pay a portion of your medical expenses *after you've met your deductible*, based on your contracted amount.

COPAY. A copay is a fixed amount you pay for a health care service every time you go to the doctor. It may be defined in an insurance policy and paid by an insured person (usually a flat fee) to the provider of service *before receiving the service*.

EXAMPLE:

1. Your health plan has a $1,500 YEARLY deductible.
2. Your co-insurance contracted amount is 80%.
3. Your co-pay is $30 for your primary care doctor (PCP) / $40 for a specialist

Every time you see a doctor, you must pay a copay ($30 for PCP or $40 for Specialist) before being seen. Any services performed at that visit are then billed to your insurance carrier. Carrier may (or may not) write off some of the charges dependent upon what the doctor's office and health carrier have contracted as "reasonable and customary" for the services provided. You are then billed for the balance due. *This balance due amount is applied to your yearly deductible*.

Once you meet the $1,500 deductible for that year, coinsurance kicks in. Based on this example, your health plan would then pay 80% of your covered services and you are responsible for the other $20. You would still be required to pay your copay at each visit whether you have met your deductible or not.

Copay is NOT applied to your deductible. It is a flat rate due each time you see a doctor.

The CPT4 Codes listed in the **NEW PATIENT** column are those most likely to be billed the first time you are seen in our Clinic. Before your first appointment (or prior to returning for a revisit or any type of testing), please check with your insurance company to make sure the visit/test(s) is covered.

REMEMBER, the patient (or parent/guardian if patient is a minor) is ultimately responsible for any fees incurred. Canton Asthma & Allergy PC, is not responsible for billed services not covered by patient's insurance carrier.

NO SURPRISES ACT

Effective: 1/01/2022

Your health benefit plan may or may not provide coverage for all of the health care services you are scheduled to receive or the provider(s) providing those services. You may be responsible for the costs of the services that are not covered by your health benefit plan.

The nonparticipating provider must provide a good-faith estimate of the cost of the health care services to be provided. A good-faith estimate does not take into account unforeseen circumstances, which may affect the cost of the health care services provided.

You also have a right to request that the health care services be performed by a provider that participates with your health benefit plan, and may contact your carrier to arrange for those services to be provided at a lower cost and to receive information on in-network providers who can perform the health care services that you need.

I have received, read, and understand this disclosure.
